leadership unplugged

STEM WARS is eager to announce our “Leadership Unplugged- Student Leadership Conference” that will be held virtually on Saturday, June 25th and again on July 9th from 10 a.m. to 2 p.m. We are hosting 2 separate events to accommodate the various summer schedules of our partners across the nation. These will be 2 completely different conferences and we encourage programs to register their students for both. Building upon the success of our empowHER (females) & RISE (males) series, we wanted to host a joint event and have selected “Leadership Unplugged” as the theme for this virtual conference. The mission of Leadership Unplugged is to inspire and empower this generation of young adults to achieve any goals that they want—to promote the importance of the journey and the work associated with it. This conference will provide a virtual space for participants to plan, execute, and assess their educational and personal goals with the help of renowned presenters.

Leadership Unplugged is here to engage and uplift attendees to be great and do great! This event will focus on careers in STEM, civic engagement, health & wellness, financial literacy and empowerment. The purpose is to provide a safe space for our youth to experience leadership building, be inspired, and interact with peers and successful adults of different ages and backgrounds.

Social and emotional health is still as much of a pandemic as COVID and our students continue to suffer the greatest. As we encourage them to become more aware of their mental health and well-being we wanted to also provide a safe space for them to do so. We would love to have your students join us virtually as we Connect, Educate, and Empower attendees while inspiring the next generation of leaders!
